

Specifications

With a total length of 9.2 meters and a flat walking surface of 42m², **Expandable 30ft Container** makes you feel like you are in a real and permanent building. And with a total loading capacity of 101m³, the container offers plenty of storage space. The chassis is equipped with four twistlocks, allowing the container to be transported easily and safely by normal truck. Upon arrival, the 30ft Container lowers itself to the ground by means of four wirelessly controlled hydraulic cylinders. The cylinders are placed flat on the ground, out of sight once the longitudinal sides have been extended. The container is fully customizable and can be attuned to meet all your needs. For example, equip

the container with a glass wall and sliding doors to transform it into an inviting and representative mobile showroom. With a step height of only 26 cm, the container can be accessed in a safe and easy way without the need of stairs.
