

Specifications

The **Expandable Hybrid** EOH is especially designed for use in situations where a low step height is required. Once detached and installed, the chassis is only 35 cm off the ground. Equipped with a glass wall and sliding doors, you create a transparent and easily accessible space. The design of the hybrid is based on the Expandable Trailer E0 and comes in two versions. The Hybrid EOH-R, with a total length of 12.5 m, is especially equipped with an internal space to store the axle assembly out of sight after installation. The internal space can be

fully integrated in the interior design of the trailer. The Hybrid EOH-M has a flat surface area of 62 m² and comes with a detachable and relocatable axle assembly. Which can be easily parked next to the Expandable using a remote control.

Expandable Hybrid EOH	 R In	 R Expanded	 M In	 M Expanded
